Puffle of the month!

Brown Puffle

Need a bit more brain power in your igloo? A brown puffle could be your perfect sidekick. Like Gary they are brilliant at inventing, and they are so smart they do sums in their sleep! Did you know that a brown puffle even built the lift up to the Nightclub rooftop?

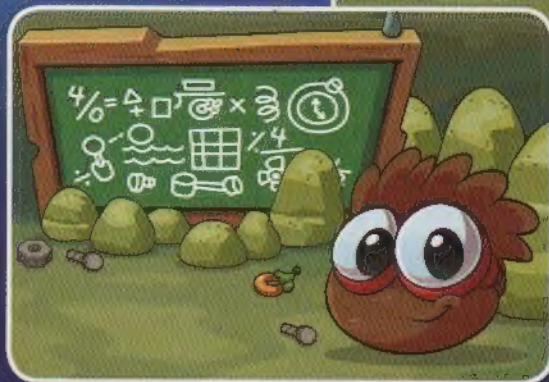

FACT:

It was discovered in a cave during the Wilderness Exploration Party!

Fave toy: Plasma ball
Fave trick: Flying in a rocket
Fave gear: Safety goggles
Fave game: Puffle Launch

FACT:

Brown puffles are afraid of balloons

What sort of secret agent are you?
Suss out your spy skills by taking this quiz!

AGENT TEST 2.0

Greetings, agent. We have not met, but I know you well. I am the Director. The rest is classified. The EPF needs agents to tackle top secret missions. You must take this test to discover your unique abilities. Let's see if you've got what it takes.

Instructions: Answer the questions then total up the number of symbols. These pages will self-destruct.*

- ⊗ Several penguins are stranded on a faraway iceberg! What's your rescue plan?

 Wave them off and wish them a safe trip! ☐

 Pass me that life preserver, I'm going swimming! ☐

 Climb to the top of the lighthouse and use the Life Preserver Launcher. ☐

 We'll need a boat to bring them back. Where's Rockhopper? ☐

1

- ⊗ Hot beverage emergency! The Coffee Shop's beans have been stolen. What should we do?

 Search for spilled coffee beans, and then follow the trail. ☐

 Ask Rockhopper if we can drink his cream soda instead. ☐

 Maybe we can download a coffee detecting app on our Spy Phones? ☐

 When the thief comes back for milk and sugar I'll capture them! ☐

2

- ⊗ Stompin' Bob and the Penguin Band are due to play at the Lighthouse for Music Jam, but the power has gone out! How to fix this?

 Carry all the gear to the Nightclub roof and have the concert there! ☐

 Maybe Gary has a back-up generator we can use? ☐

 Tell the crowd there will be a short delay, and change the fuses. ☐

 Rename the concert: Penguin Band Unplugged, the Shhh! Sessions. ☐

3

- ⊗ Flaming flippers! Herbert is using a giant magnifying glass to melt holes in Club Penguin. What do we do?

 Let's use a giant hot air balloon to block the sun above Herbert. ☐

 Fill in the holes with pizzas! ☐

 Let's throw snowballs at the glass to block out the light. ☐

 If we have a mirror we can reflect the sunlight back at Herbert and dazzle him. ☐

4

*To abort self-destruct sequence, say this sentence out loud 5 times: Penguins play ping-pong in pink pants.

Super Spy You are a master in the arts of spying, sneaking and secrecy. You are smart, sensible and ice cool under pressure, which is vital if you want to succeed in the EPF. You know when to use hi-tech spy gear and when to use old-fashioned common sense. Great job, agent!

Action Hero You are a tough guy who will do anything to keep Club Penguin safe. Whether that means taking on a giant squid or having a good old fashioned chase. Just remember that some problems can be solved with brainpower, too.

Techno Whizz You are an expert on all things tech. Just like Gary, you have brilliant ideas to help solve problems. You are always up to date on the latest tech.

Raw Recruit You are enthusiastic and hearted and always willing to help. But to be a better agent you should improve your problem solving, your use of tech gear and your spy skills. Also, try thinking twice before you act - a little forethought goes a long way.

SECRETS

Sometimes, by clicking on certain areas or words in the Club Penguin Times, you can find hidden messages sent by the EPF.

[CLASSIFIED]

X Herbert has launched a candyfloss cloud! It's even worse than the popcorn bomb - everything is covered in sugar. How to solve this sticky situation?

5

-  Sugar dissolves in water, so let's have a water splashing party and clean the Island! ☐
-  Use a giant wind machine to blow the cloud out to sea. ☐
-  It's every penguin for themselves - we should eat our way out! ☐
-  Eeek! A WASP! I hate wasps! ☐

X You're tracking Herbert to his hideout in the Forest! How do you stay undetected?

6

-  Create a thick smoke screen so he can't see me. ☐
-  Stand really still and pretend to be a tree. ☐
-  Remove my shoes to waddle as quietly as possible, and use my binoculars. ☐
-  Let's just grab Herbert before he gets away! ☐

TIMBER TANTRUM!

We've had reports of a strange disturbance in the Forest! Will you go and investigate?

**PENGUIN
MISSION**

Sir, several trees have been uprooted! And we found this weird message scratched on to a rock...

A SHAPE.
A TREE.
BE NEAR
ROOT!

This looks like the calling card of a mischievous master criminal. Try circling every third letter and writing the answer into the empty box.

What's this? Deep holes freshly dug! You're going to have to go down and explore further, but only one hole is safe enough! Follow the paw prints to the correct hole.

Now look in your EDY bag and tick five bits of gear that will help you explore the hole.

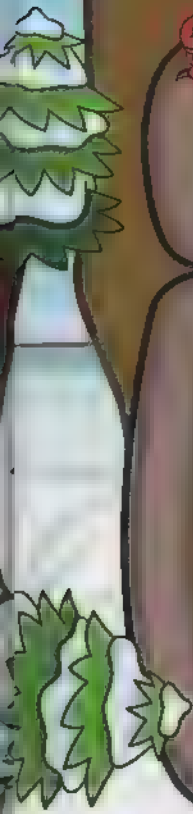

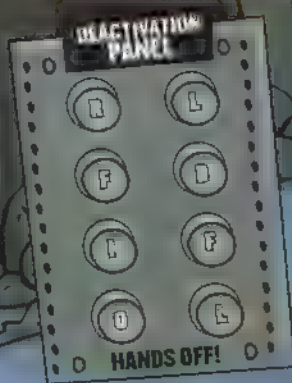

Go through the maze below and try to find out what has been causing the trees to uproot. Avoid loose rocks and tunnel crabs at all costs!

Hmm, it appears that something has been uprooting the trees from under the ground...

Oh my, it's a giant, dastardly drilling device! This is what was uprooting the trees. Try to deactivate it before it does more damage.

Your EPF spy phone is telling you which order to push the buttons to switch off the machine.

Write the code here

Great job - you have switched off Herbert's drill and saved the Forest!

Gary the Gadget Guy

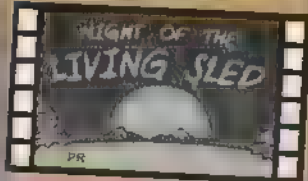

Introducing the
brightest, most brilliant
brainiac on Club Penguin
- if you can imagine it,
Gary the Gadget Guy can
invent it!

Genius 'G'

Gary is one of the most hard-working penguins of all. When he's not dreaming up devices to make Club Penguin better, 'G'. Gary's alter-ego, works for the EPF, keeping the island safe from harm (and Herbert). How does he manage it? Lots of late-night coffee and loads of Fish Dish pizza (brain food, of course).

The Director is the leader of the EPF, but Gary, as second in command, does most of the work coordinating missions with secret agents like Rookie, PH and Jet Pack Guy.

Gary's favourite movie is *Night of the Living Sled* - he watches it every Halloween.

Gary doesn't own any puffles - he is simply too busy.

Gary loves collecting things - pins, stamps, comic books - even insects.

Autograph

Gary

Gary's Top 10 Amazing Inventions:

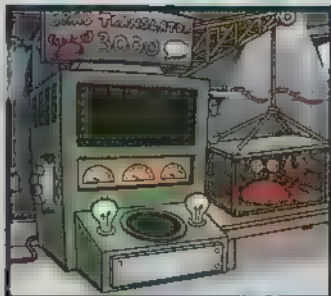

Gary has been inventing since the beginning of Club Penguin. Sometimes his devices don't quite work as planned, but the laws of physics never did run smooth, theoretically speaking ... or something.

10. Forensic Analyser 3000

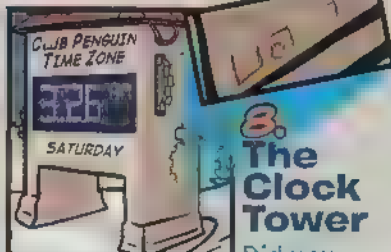

Gary can analyse any material with this device. He once tested some white fur (from Herbert) and it contained chocolate, pizza sauce and jet pack fuel!

9. Crab Translator 3000

Ever wondered what those crafty crabs are chatting about? Gary did, so he invented this translator!

It turns out they love to tell each other corny jokes. Curious.

8. The Clock Tower

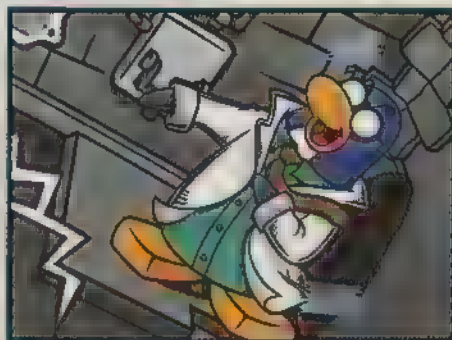

Did you know that Gary built the Clock Tower? Use your EPF code key to translate the writing written on it and you'll see. And try throwing a snowball at the target. In fact, try throwing 10!

7. Turbo Sled

This super speedy sled has a tendency to lose control and crash - lucky Gary equipped it with a Wilderness Survival Guide book!

6. Monster Maker

Every Halloween, penguins look forward to Gary's spooktacular Monster Maker!

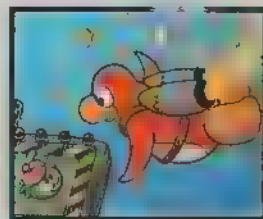

5. Hydro Hopper

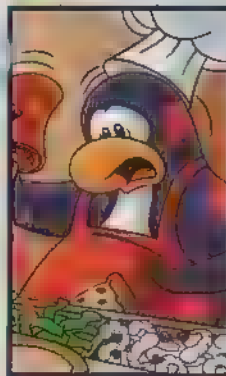

Is there a more fun way to travel across the water? Well, maybe surfing. But we love the Hydro Hopper, Gary's first ever invention and the first game in Club Penguin.

4. Jet Pack

Penguins are birds, so why can't they fly? Gary, on the other hand, thinks, "How can penguins fly?", and invented the Jet Pack. That's the difference between geniuses and regular folk.

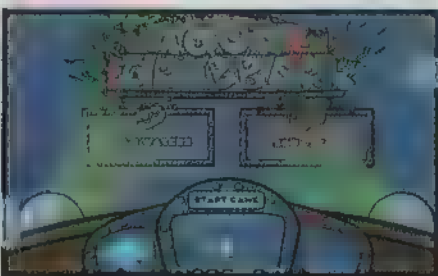

3. Pizzatron 3000

The Pizza Parlor is one of the busiest rooms on Club Penguin; Gary invented this clever conveyor to make perfect (well, almost perfect) pizzas in double-quick time.

2. Aqua Grabber

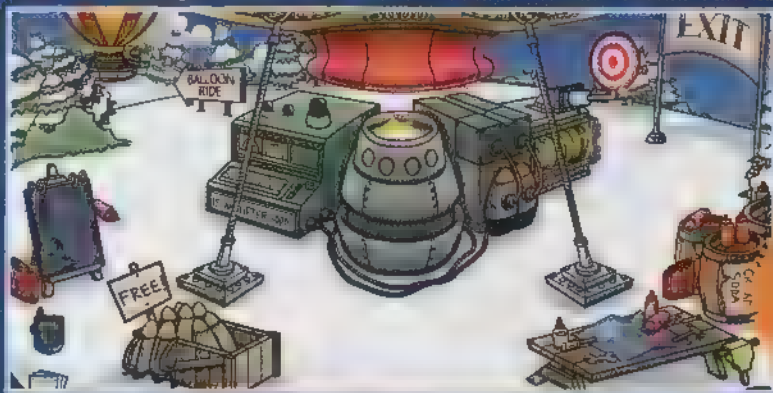

When the Migrator sank after a terrible storm, Gary invented the Aqua Grabber to grab all the pieces of sunken ship.

But the all-time most amazing invention has to be...

1. Island Lifter 3000

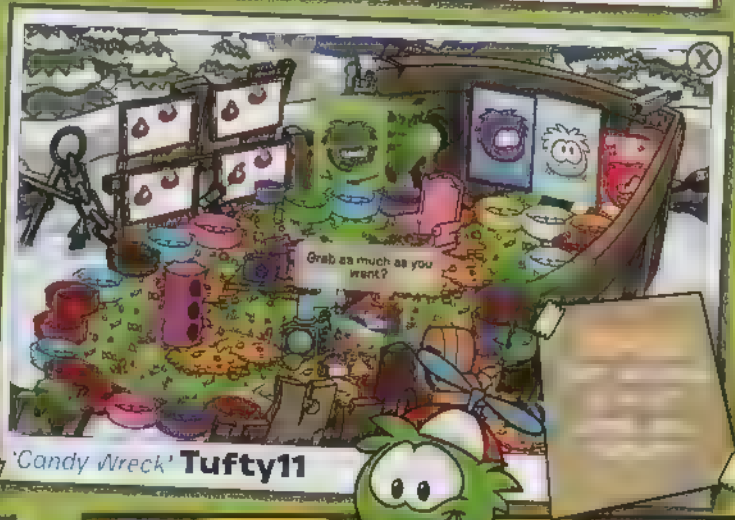

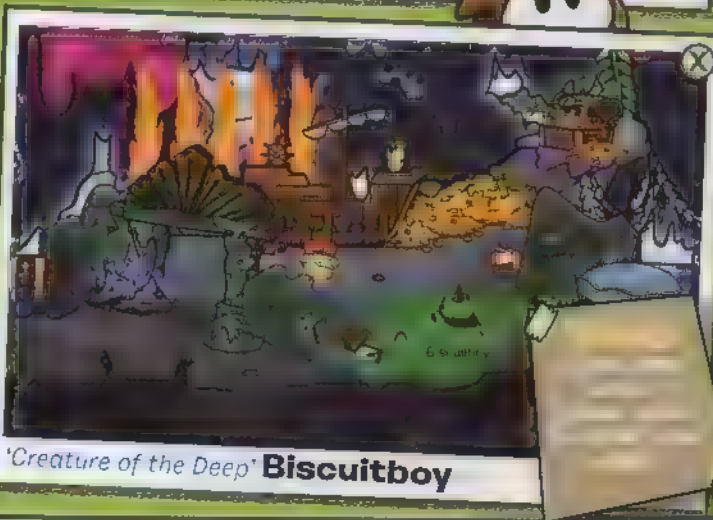

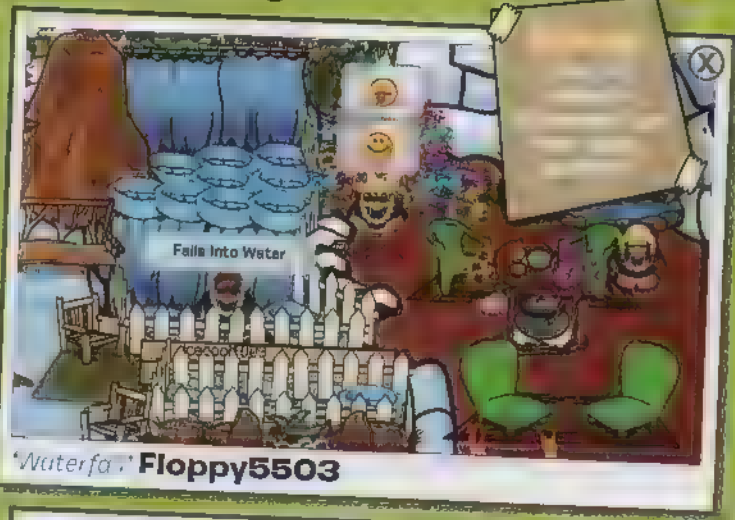

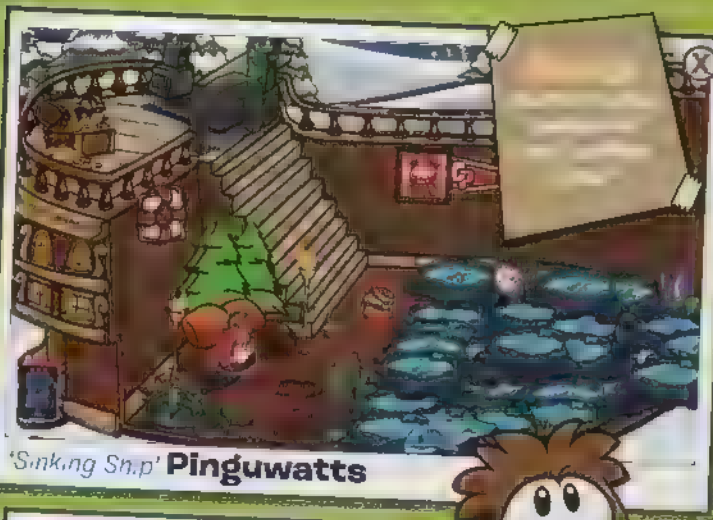

Gary lifted the whole of Club Penguin into the air with this giant, snowball-powered hot air balloon - nothing can top that!

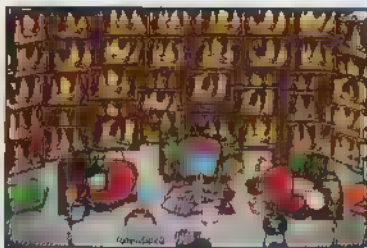

Turn to page to become Gary's lab assistant!

COOL CRIBS!

STAR LETTER

Ask Aunt Arctic

Gosh, so many letters and pictures, so little time!

Dear Aunt Arctic,
If you could invent a new type of puffle what would it be?
I would invent a multicoloured one that could turn invisible!

From Kttrtsttty

Dear Kttrtsttty,
Well, puffles can't be invented of course, but I think a dark green one, the colour of a Christmas tree with a bright red tongue, would be very nice indeed! It would love eating sweets and reading story books.
